SUMMARY

Final-year Information Technology student seeking a 20-week internship opportunity starting in August 2026 in Web Development or System Development. Equipped with hands-on experience in building web applications (PWA, MVC) and configuring ERP systems (Odoo). A fast learner and dedicated team player, eager to apply technical skills in a professional environment to contribute to real-world development projects.

EDUCATION

UNIVERSITI KEBANGSAAN MALAYSIA (UKM)

Sept 2023–Present

Bachelor of Information Technology with Honours | MUET: Band 4

KOLEJ MATRIKULASI PULAU PINANG

July 2021 – July 2023

Physical Science | CGPA: 3.42

EXTRACURRICULAR ACTIVITIES

PROGRAMMING CLUB, FAKULTI TEKNOLOGI DAN SAINS MAKLUMAT, UKM

Student Advisor

Oct 2025 – July 2026

Provided technical mentorship to committee members and managed long-term activity planning.

Secretary | Escape Room Program

July 2025

- Authored comprehensive project proposals and managed the end-to-end documentation process, ensuring all “iSTAR” (UKM Student Activity System) requirements and faculty standards were met.
- Coordinated “backstage” technical units and program flows while managing participant engagement as a Game Facilitator.

Treasurer

Oct 2024–July 2025

- Managed club finances and budgets for various student-led programs.
- Served as the primary spokesperson during Faculty Induction Day, pitching the club’s mission to prospective members.

Facilitator & Program Committee

Web Development Crash Course: Website Deployment

May 2024

- Guided participants in configuring XAMPP local servers and debugging HTML/CSS scripts using Sublime Text.

Bengkel Hour of Code

Dec 2023

- Facilitated Scratch sessions to teach core computational logic and coordinated the “Cenderamata” unit.

PROJECT EXPERIENCE

Portal UsahawanDigital (Final Year Project)

- Developed a Progressive Web Application (PWA) using HTML, CSS, and JavaScript with MVC and SPA architectures to digitize business management for micro-entrepreneurs.
- Architected a secure backend using Supabase for database management and automated deployment workflows via Vercel and GitHub.
- Engineered a core sales module enabling daily transaction tracking and automated PDF business report generation to improve financial documentation.

Noir Bloom Business Website (WordPress Project)

- Developed and maintained a responsive business website using WordPress with integrated ToyyibPay payment gateway functionality.
- Managed website content, user interface customization, and online payment integration to support digital business operations.

Odoo Inventory Management Project

- Configured and deployed Odoo ERP modules, specifically Sales, POS, Bill of Materials (BoM), and Accounting, to automate end-to-end business workflows.
- Optimized raw material consumption tracking and reordering rules to improve inventory accuracy and financial reporting.

Smash Hub Ordering System (Web Programming Project)

- Built a responsive ordering system using PHP and JavaScript with a MySQL (phpMyAdmin) database to streamline retail operations.
- Implemented role-based authentication (Admin/Non-Admin) and CRUD functionalities for product, customer, and order management.
- Improved operational efficiency through centralized order tracking and database-driven transaction management,

SKILLS & LANGUAGES

Hard Skills :

- **Web Development:** HTML, CSS, JavaScript, PHP, WordPress, Progressive Web Apps (PWA), MVC & SPA Architectures
- **ERP & Databases:** Odoo ERP, Supabase (PostgreSQL), MySQL, Database Management
- **Tools & Platforms:** Vercel (Hosting/Deployment), GitHub (Version Control), VS Code, Google Sheets & Docs, AutoCAD (3D Product Design), Red Hat Linux, IT Audit & Compliance, Unity

Languages : English (Highly proficient), Malay (Native)

AWARDS & HONORS

- **Dean's List Award (3 Semesters):** Awarded for achieving excellent academic standing in Semester 1 (2025/2026) and Semesters 1 & 2 (2024/2025).
- **Certificate of Appreciation (Treasurer):** Recognized by the Club for outstanding financial management and leadership within the Programming Club (Session 2024/2025).

CERTIFICATIONS

March 2026	Introduction to ARM On-Demand Training Programme
March 2026	Red Hat System Administration I (RH124 – RHA) -Ver. 10
